EMPOWERED ELECTRIC | COMMERCIAL AND DESIGN BUILD ELECTRICIANS

# APPRENTICE - FULL TIME

## OUR STORY | OUR "WHY"

Empowered Electric has grown exponentially over the last four years. How? The answer is simple: we hire the qualified electricians in Kansas City who want to work with us and not for us.

We've gone from "up-and-coming" to "here-to-stay" because the people we hire are a unique breed. Are they skilled at what they do? Absolutely. But what you'll see under "**Qualifications**" goes beyond the electrician trade itself.

**We're looking for passion. We're looking for grit. We're looking for excellence.**

And we don't just care about your amazing skillset as an electrician. We care about attitude and effort.

Why should you ever settle for anything less?

We want you to succeed. And Empowered isn't done growing. We can empower one another along the way - that makes work worth getting out of bed every morning. **You in?**

**SINCERELY,**

## **THE EMPOWERED ELECTRIC TEAM**

## QUALIFICATIONS

**You Show Up Ready to Learn.** You want a career and not just a paycheck. Ideally, you have 2-4 years of base residential or commercial experience (or one magical year that was enough to convince you of the electrician life).

**Flip on the "People Person" Switch.** When you work directly with service requests and customers, you make those people feel heard and taken care of - not frustrated and dumb.

**"Belt On" Learning.** You are able to execute and deliver on various tasks: pipe bending, pulling wire and a basic ability to read prints. You love to learn something new everyday - at Empowered, you will learn from experts in their field.

**Ready for Responsibility.** Although everyone at Empowered will support you, you should be able to independently install electrical materials for residential or commercial projects. We're looking for attitude and effort more than skill and experience.

**Adhere to Guidelines.** We don't mess around when it comes to OSHA regulations. We wouldn't put you or your team in a position to compromise safety.

## DISQUALIFICATIONS

**Career Growth Isn't Your Priority.** If your goal is to secure a job and coast . . . that's great. But at Empowered, we will push you to be the best electrician possible. This means the climb will get tough at times, but it's because the last thing we want for you is to be content. Enhance your career at Empowered Electric.

**You're Independent. To a Fault.** If you consider yourself a "Lone Wolf," Empowered might not be the best place for you (even though "Lone Wolf" is a pretty sweet nickname). Our team looks after one another and pushes each other to do excellent work and grow in our craft.

**You're Not Quite There.** If you feel like Empowered is the place for you, but your skillset isn't ready for the ensuing tasks...we respect your honesty. We care about the drive to get better just as much as the skill itself. When both of those qualities align, let's start a conversation.
